

Roof Repair Sealants

H.E.R.
Flash Grade Polyurethane Sealant

Quicket
Self-Leveling Sealant

2100 MS Adhesive Sealant
Silyl-Modified Adhesive Sealant

Permthane® 7108
Polyurethane Sealant

HIGHEST PERFORMING SYSTEMS
LOWEST APPLIED COST

H.E.R.

Flash Grade Polyurethane Sealant

ERSystems® H.E.R. is a fluid-applied, fabricless self-conforming polyurethane sealer.

- Excellent strength and elongation
- Adhesion to multiple substrates
- High solids polyurethane
- Performing since 1977
- Single step metal sealant
- No fabric reinforcement required
- Easy to gun and tool in place
- Fast and economical repairs

COLORS

■ Aluminum Gray

Stop leaks and avoid trapped moisture.

Traditional fabric "tenting" leaves space for condensation to accumulate.

H.E.R. forms a complete seal, eliminating the possibility of moisture accumulation.

PACKAGING

5 gal Pail

2.5 gal Pail

1 gal Pail

20 oz Sausage

10.1 oz Cartridge

Quicket

Self-Leveling Sealant

ERSystems® Quicket is a liquid applied self-leveling polyurethane designed for building crickets as well as a pourable sealant for roof systems.

- Multipurpose pourable sealant
- Quickly build crickets
- Self-leveling
- High tensile strength and elongation

COLORS

White

PACKAGING

2.5 gal Pail

2100 MS Adhesive Sealant

Silyl-Modified Adhesive Sealant

ERSystems® 2100 MS Adhesive Sealant is a multi-purpose repair sealant with excellent wet patch repair capabilities.

- Excellent wet patch repair
- Adheres to moist, nonporous substrates
- Excellent adhesive for fabricated roof-lap seams
- High solid silyl-modified adhesive sealant
- Sealing roof curbs, racks and skylights
- Excellent weatherability
- Primeless adhesion
- No fabric reinforcement required

COLORS

White

PACKAGING

2.5 gal Pail
20 oz Sausage
10.1 oz Cartridge

PERMATHANE® 7108

Polyurethane Sealant

Permathane® SM7108 is an all-purpose polyurethane sealant with excellent adhesion to a wide variety of materials.

- Primerless adhesion to multiple substrates, including Kynar 500®
- Permanently flexible, superior weatherability
- Non-sag, One-component
- Adheres to wet, nonporous substrates
- Easy to gun – Easy to tool
- Elastic consistency with excellent cut and tear resistance

COLORS

■ Black

□ White

■ Gray

■ Almond

■ Limestone

■ Bronze

PACKAGING

20 oz Sausage

10.1 oz Cartridge

ERSystems® Product Guide

FINISH COATS

OneStep Plus – A high performance, single-step roof coating designed to provide excellent adhesion to multiple substrates and coatings. *Color: White. Packaging: 5 gal Pail.*

Polyurethane 300 Aliphatic Finish Coat – Designed to provide a combination of superb adhesion to a variety of substrates and a balance of high elongation and high tensile strength. *Colors: White, Gray. Packaging: 5 gal Pail, 55 gal Drum.*

Polyurethane 300 Aromatic Base Coat – Provides superb adhesion to a variety of substrates. High elongation and high tensile strength. *Colors: Gray. Packaging: 5 gal Pail, 55 gal Drum.*

Acrylic 1000 Plus – Versatile, economical and easily applied coating. It is designed to protect Metal, Single-Ply, Asphalt and Spray Polyurethane Foam Roof Systems. *Colors: White, Gray. Packaging: 5 gal Pail, 55 gal Drum, 275 gal Tote.*

Acrylic SW – Value engineered, highly reflective, Energy Star certified and easily applied coating. It is designed to preserve and protect multiple substrates. *Colors: White, Tan. Packaging: 5 gal Pail, 55 gal Drum, 275 gal Tote.*

PRIMERS

Single Ply Primer – Single Ply Primer is designed to prepare a single ply membrane surface to accept and retain adhesion to a protective coating. *Color: Clear. Packaging: 5 gal Pail.*

Acrylic Asphalt Primer – Acrylic Asphalt Primer may be used over new or aged smooth BUR, Modified Bitumen and asphalt emulsion as a base coat. *Color: Gray. Packaging: 5 gal Pail, 55 gal Drum, 275 gal Tote.*

Acrylic Metal Rust Primer – Gray colored, air dry, great adhesion and excellent corrosion resistance. It shows superior re-coat ability, exterior durability and UV screening capabilities. *Color: Gray. Packaging: 5 gal Pail, 55 gal Drum.*

Polyurethane Metal Rust Primer – Polyurethane Metal Rust Primer is a single component, aluminum pigmented, moisture-cure urethane primer for rusty surfaces. *Color: Gray. Packaging: 5 gal Pail.*

REPAIR

Acrylic 1000 FG – Easy to apply acrylic latex caulk. It is designed to fill holes, cracks, joints and provide a long lasting seal between most common construction materials. *Color: White. Packaging: 2 gal Pail.*
